LATEST ADVICE FOR CORONAVIRUS

If you display any of the following symptoms, the advice is to self-isolate – this must be done for 7 days and you do not need to call NHS 111 or your GP, unless the symptoms worsen or are still present after 7 days :

- A NEW CONTINUOUS COUGH
- HIGH TEMPERATURE (37.8 degrees and above)
- SHORTNESS OF BREATH – LIKELY TO FOLLOW AFTER THE FIRST 2 SYMPTOMS

Self-isolation means:

- STAYING AT HOME
- STAYING AWAY FROM FAMILY MEMBERS
- STAYING IN SEPARATE ROOMS
- DOING THIS FOR 7 DAYS UNLESS SYMPTOMS ARE STILL PRESENT

Advice given states that, 'It is not necessary for family members or siblings to self-isolate unless they are too displaying symptoms'.

We ask that children DO NOT ATTEND SCHOOL if they show any of these symptoms and stay at home for the 7 days.

Thank you for your continued support and co-operation!

Yours sincerely,

A handwritten signature in black ink, appearing to read 'L Gibbs'.
