4. 5.	How are pupils with SEN ensured access to the curriculum?	<p>The school believes that children should be assessed early to provide early intervention. Children from Nursery to Year 1 are screened using the Wellcomm and NELI screening to highlight any children that are having speech and language difficulties. Children in Reception are assessed using NELI.</p> <p>The school believes all children have a right to access a full experience of the curriculum. High quality teaching ensures that all children are provided with opportunities to learn. The planning of all lessons takes into account the needs of all children. Some children, however, have short and long term special educational needs which require more attention than this. Children with special educational needs will be supported in the classroom with appropriate adult support and teaching resources. Some children may require a separate timetable to enable them to make progress against their targets.</p>														

		<p>Where children need support beyond the normal teaching programmes, they may be withdrawn individually or in small groups from the classroom to work with an LSA. These interventions will be supported by assessment carried out or recommendations from specialist teachers. The interventions may be a small number to explain specific concepts or a long term structured intervention which often follows an intervention programme.</p> <p>The child's self-esteem and independence is of crucial importance if progress is to be made. We aim to provide work which will encourage, motivate and consistently reinforce a sense of achievement and success.</p> <p>The class teacher, in conjunction with the SENCo, parents and the child, will consistently monitor progress through One Plan Meetings.</p> <p>Curricular arrangements using the school's cycle of observations, pupil perceptions and book monitoring (see monitoring policy) are in progress. In addition the SENCO with the teacher reviews the progress against their targets and attainment.</p> <p>Having identified a learning need the school will set in motion a Graduated Approach laid down by the new SEN Code of Practice 2014 and following the flow diagram as set out by Essex County Council.</p>
6.	How is their progress monitored?	<p>Progress is monitored in a variety of form:</p> <ul style="list-style-type: none"> <li>• Day-to Day Assessment for Learning Strategies are used in class</li> <li>• Use of Precision teaching/ Reading Catch-Up/Maths Catch-Up Intervention programmes to support next step planning</li> <li>• Class data is looked at half termly to ensure progress of all groups of children, including those on the SEN register</li> <li>• One Plans are assessed half termly to ensure targets are met using the plan, assess and review cycle</li> <li>• Specialist teacher observations to check progress and offer recommendations</li> <li>• Progress against Wellcomm targets.</li> <li>• Interventions last no more than 6 weeks; children are assessed before and after the intervention.</li> </ul>
7.	Are all the relevant plans in place? (provision maps, individual education plans, pastoral plans)	<p>Children identified as having SENs will either have a One Plan and will follow the Essex County recommended flow diagram.</p> <p>If further action or advice is needed a request for statutory assessment will be made and this can lead to a child being given an EHC Plan (Education, Health and Care Plan) or in some cases IPRA funding is used to support the child with medical needs or through transitions.</p>
